## DESCRIPTION:

Hotel Santa Leticia is a mountain lodge located in the Flower Route, 1 hour 15 minutes from San Salvador and 2 hours 30 minutes from El Salvador International Airport (SAL). The lodge is characterized by its excellent service and quality. It is surrounded by a shade coffee farm, and located in the mountain chain called, "Cordillera de Ilamatepeque", a natural corridor for more than 250 species of migratory and local birds. The area has very comfortable weather due to the altitude. Therefore, no AC is needed at the rooms. The Pipils inhabited these lands after the Mayas, who were the first settlers of this area of America, leaving a legacy of a ceremonial center that dates 600 B.C. This Ceremonial Center is now known as "Santa Leticia Archaeological Site."
